## ADVANCED FURNITURE TESTING

### The New Benchmark in Certification

#### Who is Advanced Furniture Testing?

Advanced Furniture Testing is an accredited independent laboratory which tests education furniture to specific Australian and international furniture standards.

Advanced Furniture Testing is accredited by the National Association of Testing Authorities (NATA). It is the most technologically advanced furniture testing laboratory in the Southern Hemisphere.

# Focus on the future

Learning needs to prepare students with skills and capabilities to thrive in a rapidly changing and interconnected world by connecting and engaging their sense of curiosity.

Future-focused environments inspire students to be leaders of their own learning. Students collaborate and use critical and creative thinking to solve complex problems and become mindful global citizens.

Future-focused teachers are flexible and select from a range of effective teaching strategies.

The modes for future learning highlight different ways in which learning occurs. Each mode requires students and teachers to be interacting differently with space and each other.

# Ask about our STEM & STEAM range

# Future learning modes

**Collaboration** - a place to learn with others.

**Feedback & reflection** - a place to learn about my learning.

**Discussion** - a place to talk about and share my ideas.

**Guided** - a place to learn with an expert.

**Demonstration** - a place to present my learning.

**Explicit** - a place to learn from an expert.

**Experiential** - a place to make, explore and investigate.

# ► Plato Student Chair

# ► Acer Table Range

**Many table settings are not adaptable to changing demands and educators are forced to work around their furniture's limitations.**

It was this design flaw which inspired the innovation of our Acer Table Range. Facilitating vast permutations of table configurations in both individual and group-use contexts, our Acer Tables are perfect to live up and improve the functionality of your space. The range includes fixed, mobile, height-adjustable and flipping frame systems, and modular top shapes that can evolve to include multiple users on demand.

The strength and flexible nature of our frame systems have enabled us to produce highly unique tables, to the extent that if you have a custom table shape in mind, we are confident our frame systems can bring your idea to life!

Check out the quality of our Acer Tables! They're flexible and strong, perfect for sustained use in any interior environment!

## Push-Pin Height Adjustable

With high-strength 1.6mm gauge steel and a high tensile push-pin system, our legs allow 5 different table height options, without sacrificing product stability or integrity. The Acer leg has a 60mm diameter (far superior to similar products at 40mm) ensuring no movement or rattle.

## Mobile Lockable Wheels

Standard with mobile, height adjustable and flipping frames, our mobile castors make reconfiguration a breeze - once you've found the perfect spot, simply lock the castors and you're set!

## Flipping Frames for Easy Storing

Need to free up an open floor space? Simply unlock the mechanism latch, flip your table tops to an upright position, and stack them away - the ultimate space-saving option!

## Top Quality Laminates and ABS Edging

Our table tops come standard with quality laminate finishes and high-impact ABS edging, to ensure that your top withstands your day-to-day activities, with little sign of wear.

# ► PODZ Ottomans

*Does your space require furniture that can endure use by large volumes of people, and stand the test of time? Do you want something new and funky to inspire learning, whilst complying with OH&S standards? We've got you covered!*

Usually it's hard to find affordable innovative furniture with commercial-grade construction, but it just so happens that all of our Modular Furniture Range answers to the requirements for high-demand work spaces - **in fact we believe we have the strongest modular ottomans available on the market.** Innovation and quality, we feel, is the most important criteria a furniture item should aspire to. And this is reflected in our products, whereby all of our Modular Furniture Range has been over-engineered to ensure customer comfort and satisfaction.

**So just how good is our product quality?** Well, just have a look at what goes on inside one of our Round Ottomans!

## Heavy-duty MDF Internals

The internal construction of our ottomans consists of heavy-duty "E0" MDF panels to eliminate any chances of structural failure, for assured safety during use.

## Smooth Finish

The "E0" MDF internal is reinforced around the sides, promoting a smooth consistent finish that is hard to damage.

## High-grade Vinyl & Foam

All internals are encapsulated within a foam sleeve covering both the seat surface and sides. This is then complemented by vibrant commercial vinyl with reinforced double stitching.

## Chrome Ball Castors

Finally, all of our Modular Ottoman products come standard with our state-of-the-art chrome castors, answering to OH&S requirements for easy relocation, whilst delivering on looks.

## STORAGE IS VITAL.

Efficient storage is vital for two key reasons - security of personal items and creating order in shared spaces.

With every space being different, whether at work, in learning spaces or at home, storage requirements can vary significantly.

For this reason we've designed our storage range to provide flexible options for diverse spaces.
